Other facilities across the UK

We especially need CPs in key transport facilities

Cherwell Valley service area at junction 10 on the M40 East

Midlands Airport castle Donnington, Derby we need many more..

There are now over 650 Changing Places across the UK. They are a valuable facility for many disabled people and families, not just those who rely on the hoist. Many other locations would change our lives even more, **airports, railway stations, ferry terminals, country parks, historic houses, theatres, arenas, football stadiums and concert venues .**

If we don't ask, write letters, email, the managers of these places will never know how a Changing Place in their venue could change lives.

Check www.changing-places.org website for news and updates and ring any venue before visiting, to double check on availability, opening times.

Access to most CP's is normally by RADAR key, or a key held at a reception desk. Contact Liverpool Lifehouse tel 0151 296 7733 if you want to buy one yourself.

Don't leave it to others. Please can you approach possible venues with an enthusiastic letter or email or let us know if there are any locations and venues near you that might be willing to change the lives of 1000's of people and families across the UK, by installing a Changing Place with their facilities. When and if needed, we can also gently remind them about meeting British Building Standards 2009, and a commitment to Equality Act 2010

Keep in touch locally with Liverpool Wheelchair User Group www.lwug.co.uk
